

Winter 2020 Flu Vaccination

Flu dates this year will be Saturdays:

19th September

3rd October

24th October

Patients will be invited in priority order.

The following patients are entitled and will be invited:

In order to observe infection control procedures and required social distancing, we will run flu clinics differently this year to previous years. You will be booked into a specific time slot, and we would ask that you do not arrive more than 5 minutes prior to this time. Please register with the member of staff outside the surgery, and follow their instructions and practice signs to enter the building from around the back.

There is a possibility you may have to wait outside, so please come prepared. It would help us if you could wear a short sleeved top, and removed your coat or any long sleeved over garments before entering the clinical room.

Each patient will be allocated a limited amount of time, to receive the flu jab only – please do not ask the clinician for any other items, such as prescriptions during this clinic. All patients should wear a mask when entering the surgery premises. Please come alone unless you need support.

You should only attend the clinic if you are well. If you have/have had any symptoms of Coronavirus in the 14 days up to your appointment date – a new cough, high temperature, or loss/change in taste or smell – please cancel your appointment and re-arrange.
