

Everyone in England aged 60 to 74 years who is registered with a GP is automatically sent a bowel cancer screening kit every 2 years.

For further information on screening you can visit <https://www.nhs.uk/conditions/bowel-cancer-screening/> or call 0800 707 60 60.

When you get your kit, make sure you complete it. This little test could save your life!

[#takethetest](#) [#screeningsaveslives](#)

Bowel cancer screening can save lives.

At the moment in some areas of the UK only **a third** of those who receive a test complete it.

Bowel cancer is treatable and curable especially if diagnosed early.
Nearly everyone diagnosed at the earliest stage will survive bowel cancer.

Taking part in screening is the best way to get **diagnosed early**.

If you are **over 60** (or over 50 in Scotland), **take the test** when you receive it in the post.

Take the test!

If you are **younger**, tell the people over 60 (or over 50 in Scotland) in your life, to **take the test**.
