

Solihull UTC (Urgent Treatment Centre)

Go to www.badgerUTS.uk to register and book an appointment

For patients (over 1 year old) to book to see a GP/Nurse about an urgent but not life-threatening health problem that cannot wait until the GP is next open.

Problems include illness that started recently such as:

- Headaches
- Cough and colds, sore throat
- Earache
- High temperature
- Sickness and diarrhoea, tummy pain, constipation
- Insect bites and stings
- Minor injuries (where the skin is not broken and you can walk without help)
- Period pains, emergency contraception within 72 hours of unprotected sex
- Ingrowing toenails
- Backache, neck ache or joint problems
- Sprains and strains
- Skin rashes and infections

For urgent mouth problems / tooth infections (contact your dentist or NHS 111)

What sort of patients can NOT be referred to the UTS?

999

UTS is NOT an EMERGENCY service

If patient is too severely ill to speak or walk or has any of the following advise call 999 or go to A & E:

- Severe chest pain – suspected heart attack
- Breathing difficulties
- Collapse – loss of consciousness
- Heavy bleeding
- Signs of a stroke – face drooping, unable to lift both arms
- Severe injuries following an accident
- Choking
- Seizures

- Seizures
